The AM Monoblock Series

Customers demand individuality. Design variations not only offer aesthetic value that can be matched to consumer requirements, but differentiate between competing customers.

The AM range offers such choice from a menu of styles and features, designed to work in tandem with well renowned inner construction.

Available for customisable housing, there is a number of possibilities to tailor the products using not only colour but also electronic LCD or LED controls and special filters.

The AM monoblock series

- ~ Choice to suit most average sized rooms
- ~ Same shell size; various capacities
- ~ Timer: 1-8hr off-timer on mechanical control models
- ~ Timer: 1-12hr on/off timer on electronic control models
- ~ 2-speed turbo fan
- ~ Directional air louvres
- ~ Filter options: washable, carbon and antiseptic
- ~ Discharge hose for hot air – extends 0.3 – 1.5 metres
- ~ Window/wall fitting kit included
- ~ Electronic controls can have remote control – optional
- ~ Evaporative booster for improved cooling

AM Split Outdoor

Self-sealing, quick fit coupling

All AM product styles are available in a portable split version.

For further improved efficiency of the AM Series, these monoblock versions have the ability to use a rear panel to add water to the cooling system.

Trolley handle for easy movement

Large wheels for moving upstairs

Clip-on-tank for evaporative booster

Heavy-duty particle filter

Electronic control panel

LCD control panel (AMB only)

Mechanical control panel
