

800CH All Seasons

*The ideal All Seasons
...the perfect solution for year
round heating and cooling*

The Convair All Seasons is a highly versatile, portable, evaporative air conditioner not only capable of effective cooling, it doubles as a very effective room heater. As an additional benefit, it can also act as a portable humidifier, gently moisturising stuffy and dry indoor winter air that can irritate dry skin and cause nosebleed.

- Cools you when you are hot
- Warms you when you are cold
- Humidifies dry air in summer or winter for health and comfort
- Quiet operation. Delivers excellent cooling to where you want it
- Draws, filters and cools fresh air from outside
- Low running costs for summer cooling

*The ideal All Seasons
...the perfect solution for year
round heating and cooling*

- Totally versatile in all weather conditions
- 3 speed fan controls different cooling settings
- Delivers an air flow of 821m³ per hour, using less than 85 watts of power on cooling cycle
- Ultra-safe, highly acclaimed ceramic heating element delivers 2000 watts of direct heat
- Will not rust or corrode
- 17 litres capacity water container - easy to fill and discharge

The natural healthy air cooling system

The All Seasons uses the principle of natural evaporation to provide you with 100% cool fresh air. There is no re-circulation of stale air. The air is drawn from the outside, gets filtered through the portable system and the result is naturally cooled clean air. The natural process also ensures that no harmful gases are released into the atmosphere to harm the environment.

*Environmentally
Friendly*

The efficient heating system

As well as cooling the All Seasons appliance also heats and delivers gentle heat to where you want it. Its space-age 2000 Watts ceramic element is self-regulating and highly energy efficient. It is quite different to a regular heating element. The heat output is adjustable and the appliance will not overheat. You will be amazed how quickly your room heats up.

*Ultra-safe,
highly acclaimed
ceramic heating
element*

Constructed for long life

Manufactured in Australia, one of the hottest and driest climates on earth, by Seeley International, the All Seasons will provide you with years of reliable service. Its rugged yet stylish construction and technical efficiency, together with its portability will heat or cool your home whatever the weather.

★
MAGICCOOL by convair®

Natural Cooling, Healthy Living

Natural Cooling, Healthy Living for your modern day lifestyle. Stylish contemporary in design and advanced in technology, Magicool offers you the healthy lifestyle you deserve in your home and office. This environmentally friendly evaporative air conditioner uses the natural air cooling system that ensures air is kept fresh, constantly.

- Brings in 100% fresh air
- Improves air quality and stops static electricity
- Low running costs
- Compact and powerful

*The healthy lifestyle
you deserve in your home*

The natural healthy air cooling system

- No re-circulation of stale air
- Environmentally friendly - does not emit harmful gases into atmosphere
- Balances moisture in the air
- Filters out dust particles
- Portable and easy operation
- Contemporary & stylish design
- Suitable for any small- or mid-size home, apartment or office

Magicool offers consumers a healthy choice

Magicool uses the natural air cooling system that is environmentally friendly and healthy. Fresh hot air is constantly drawn from the outside through a special cooling pad that is saturated with water. The heat is absorbed and cool fresh air is circulated throughout the room. There is no re-circulation of stale air within the room. The cooler also has control that allows you to balance the moisture in the room if the weather is too dry.

*Environmentally
Friendly*

Compact, powerful and quiet

Magicool has been designed to provide customers with true value for money, with its compact design and technologically advanced features, giving customers peace and comfort. Magicool comes with the sophisticated, high-tech and ultra-powerful Stealth[®] fan that provides more cooling than any other small cooler. What's more, the fan is also super quiet, giving you long undisturbed sleep on the hottest nights.

*Ultra-powerful
Stealth[®] fan*

How to use Magicool

Magicool is easy to operate. Simply add water, plug it in and turn it on, and adjust the water flow and fan speed to your desired comfort level. For maximum efficiency, place the back of Magicool to an open window or door to draw in 100% fresh air. Open another window/door on opposite side of room to create "flow through" ventilation

*Fill water
here*

Where to use Magicool

Magicool can be used throughout a home and office. Depending on air quality and room configurations, it will create comfort in any small to medium size room.

For the technically minded

MILLENIA

MASTERCOOL

by convair®

*The Convair Millenia Mastercool
- cooling that's fresh
healthy and natural*

Using the same principle as nature to cool, the portable Convair Millenia Mastercool evaporative air conditioner allows you to enjoy naturally cooled fresh air and gentle breezes wherever you want them.

The natural healthy air cooling system

- Environmentally friendly - cools without using harmful CFC gases
- Draws, filters and cools fresh air from outside
- Low running costs. Uses less than a 100 watts light bulb
- No recirculation of stale air

The Convair MASTERCOOL - cooling that's fresh healthy and natural

- 3 speed fan controls different cooling settings
- Delivers an air flow of 1,010m³ per hour, using less than 100 watts of power
- Will not rust or corrode
- 15 litres capacity water container - easy to fill and discharge
- Motorised auto-sweep for wide range effect
- Simple controls
- Quiet operation. Delivers excellent cooling to where you want it

The smartest evaporative air conditioner in the world

The Convair Mastercool provides in home or office performance which is far ahead of the rest of the field as its futuristic elegance suggests. At the very heart of the Mastercool is the sophisticated high-tech and ultra-powerful Stealth^{®1} fan, the result is more air flow than any other Slimline evaporative air conditioner in the world. The same goes for cooling power. With an economical 85 watts electrical input, Mastercool returns a massive 971 watts of cooling - much more than other slimline competitors.

Ultra-powerful
Stealth[®] fan

Cooling power that won't disturb your sleep

When designing Mastercool's Stealth[®] fan the objective was to maximise air flow and minimise noise. The result is a piece of technology that provides superior performance on both counts. Imagine cool, undisturbed sleep on the hottest of nights!

Large controls.
Easy to read,
easy to use

Cooling that's fresh, healthy and natural

Like all Convair evaporative air conditioners, Mastercool provides cooling that's as natural as a sea breeze. Convair evaporative air conditioner contains no harmful CFC gases; fresh air is drawn into the unit, then cooled as it passes through water soaked cooling pad. Nothing could be more natural or healthier.

BLOWS THE REST AWAY

High performance cooling

convair[®]

cooler by far

**NOTHING
COMPARES TO
CONVAIR COOL**

When it comes to sheer cooling power no other portable cooler even comes close to Convair. That's because every model in the range is equipped with a super-quiet stealth fan and cleverly designed filter pads that combine to quickly pump out masses of fresh, cooled air in even the hottest conditions. Naturally, every Convair portable evaporative air conditioner is proudly Australian made and comes with a full two-year warranty.

COMPARE THE COOL

Convair portable air conditioners blow the rest away with cooling effects that are superior to all other comparable systems. Take a look at the cooling comparison chart and you'll be blown away too with Convair's efficiency.

COOLING THAT COSTS LESS

Convair portable evaporative air conditioners are versatile, easy to move and so cheap to operate, you'll barely notice the cost.

COOLING THAT'S FRESH AND NATURAL

Convair evaporative air conditioners contain no harmful CFC gases and provide cooling that is refreshingly clean. Air is drawn into the unit and cooled naturally as it passes through water soaked pads. Nothing could be simpler, cleaner or healthier.

Perfect for cooling your living room.

Perfect solution for cooling bedrooms.

Perfect for cooling outdoor entertaining areas.
